### Bull Elk Shot and Abandoned

**October 26, 2011**

Grand County -

On October 22, 2011 a concerned hunter contacted the Utah Division of Wildlife Resources' UTiP hotline reporting a 4X4 bull elk that had been located while deer hunting in the La Sal Mountains in Southeastern Utah. The bull had been shot and abandoned on the North end of Pine Ridge near Taylor Flat.

Conservation Officer TJ Robertson investigated the crime and confirmed the bull had been shot in the back and left to die. The animal was euthanized due to the severity of it's wounds. Wildlife officers are asking for the public's assistance in solving this crime.

Anyone with information about the illegal killing of this bull elk, or any other wildlife crime, is encouraged to contact the UTiP Hotline at 800-662-3337 or Officer Robertson directly. Rewards are available and requests to remain confidential are respected.
